GENERAL INFORMATION

Venue:

Hilton Garden Inn Hotel, Bucharest, Romania
Floreasca Hall (Level -1)

Conference schedule:

	Scientific programme	Coffee break	Lunch	Diplomas
Friday, March 29th	09.00-17.30	11.30-12.00	14.00-15.00	-
Saturday, March 30th	09.30-16.00	11.30-12.00	13.30-14.30	16.00

Accredited with 11 hours of Continuing Medical Education
by the Romanian College of Physicians.

Ilie Barb

Born in Sibiu, Romania, Dr. Barb received his Medical degree from University of Medicine and Pharmacy in Tirgu-Mures, Romania.

Dr. Barb was ranked 1 out of 360 in Medical School going on to complete his Residency and Fellowship at Emory University School of Medicine in Atlanta, Georgia.

Dr. Barb board certifications include Interventional Cardiology, Peripheral Vascular Disease, Echocardiography, and Nuclear Cardiology. His areas of clinical interest include valvular heart disease, mitral valve disease, transcatheter aortic valve replacement (TAVR), invasive and non-invasive Peripheral Vascular Disease testing and Clinical Hypertension.

Dr. Barb is an ASH Certified Hypertension Specialist and he joined The Cardiac & Vascular Institute in 2014.

Ferenc Györy

Dr. Györy worked as an anest-ICU specialist for 5 years in a cardiovascular surgery unit. Since 2004 he has been working as an interventional cardiologist and because of his previous experiences he also take part in the attendance of the ICU cardiology patients.

During the last few years Dr. Györy has been doing complex interventions mostly (LM-PCI, bifurcation-PCI, rotablation, circulatory assist device etc.).

In 2014, when the CTO programme started, these kind of interventions are regularly done at the Institute of Cardiology, University of Debrecen.

Martin Hudec

Dr. Hudec is Head of Department of Acute Cardiology and Consultant Interventional Cardiologist at Middle-Slovak Institute of Cardiovascular Diseases, Banska Bystrica, Slovakia and External Cardiology tutor at the Slovak Medical University.

He is also member of Interventional and Acute Cardiology committee in Slovak cardiology society. His PhD Dissertation Thesis was on The effect of percutaneous myocardial revascularization on chronic heart failure.

Dan Ioanes

Born in Cluj Napoca, Dr. Ioanes graduated from Iuliu Hatieganu University of Medicine and Pharmacy in the same city in 1992. He practices medicine in Sweden since 1994.

Specialist in internal medicine, cardiology and interventional cardiology. Senior consultant cardiologist at Sahlgrenska University Hospital in Gothenburg since 2007.

Special interest in complex PCI, chronic occlusions, TAVI, septal alcohol ablations, reducer treatment of chronic angina.

Member of the Working group on PCI and Valve Interventions at Swedish Society of Cardiology and member of the European Educational Committee of EAPCI.

Ulf Jensen

Dr. Jensen has a double specialty: cardiac surgery and interventional cardiology. He has been doing PCI since 2002 and has been a senior consultant and head of cath lab and ischemic heart disease at South General hospital since 2015.

Dr. Jensen has a PhD in simulation in PCI training and has been doing complex PCI since 2007 doing rotablation and started the CTO program at Karolinska University hospital in 2009. Working at the Södersjukhuset/South General Hospital in Stockholm, Sweden, since 2013.

He was an official CTO proctor for Boston 2014-2016 to promote the Bridgepoint technique. His other interest lies in complex PCI, the more complex the more fun! He is also performing LAAC, alcohol septal ablation and implant REDUCER device. Because of his history in cardiac surgery he's also used to cannulate and initiate ECMO.

Peep Laanmets

Born in Estonia in 1977, Dr. Laanmets graduated Tartu University in 2001. He is a licensed cardiologist since 2006 and has a interventional cardiology certificate from Estonian Cardiology Society 2008.

Dr. Laanmets is Past President of Estonian Society of Cardiology (2015-2018) and leader of CTO program in North-Estonia Medical Centre.

He is performing about 400-450 PCI's and 60-80 CTO-s annually and proctoring CTO procedures as freelancer.

Kambis Mashayekhi

Deputy Senior Consultant Cardiology and Angiology II of the University Heart-Center Bad Krozingen, Germany, and Director of the CTO and CHIP Program.

The spectrum of cardiovascular interventions include: Chronic Total Occlusions (CTO 350 per year), Top 3 in Europe (www.ercto.org), Coronary high-risk PCI with left ventricular support, Rotablation (70 per year), IVUS controlled Left Main stenting, Treatment of challenging coronary multivessel diseases, TAVI-Implants (50 annually going back to 2010 to 2016).

Dr Mashayekhi is also a reviewer for JACC, JACC CV Interventions, Journal Critical Care, Catheter Cardiovascular Interventions.

Truls Råmunddal

Dr. Råmunddal is an interventional cardiologist specialized in complex PCI and CTO. He was trained in cardiology and interventional cardiology at Sahlgrenska University Hospital, Gothenburg, Sweden.

He has been deeply involved in CTO education in Sweden and is frequently requested as proctor for CTO in the Nordics and across Europe.

Zoltán Ruzsa

Angiologist and Cardiologist, is an Associate Professor at Semmelweis University, Cardiac and Vascular Center and Head of Invasive Cardiology at Bács-Kiskun County Hospital.

Currently the president of the Hungarian Association of Cardio-Vascular Interventions. He is expert in doing complex coronary (CTO, LM, rotational atherectomy) and peripheral procedures (carotide, subclavian, renal, venous and lower limb interventions).

He is principal investigator in many international and investigator initiated trials in interventional cardiology and angiology field.

Igor Spiroski

University Clinic of Cardiology, Skopje, Macedonia

600-700 TRA Interventional procedures per year (more than 6000 interventions overall).

Educator in interventional cardiology (TRA). Treatment of multi vessel disease, chronic total occlusion, left main disease, acute coronary syndrome - STEMI 24h program, carotid stenting. Application of IVUS and OCT techniques.

Head of the Laboratory for Interventional Cardiology at Department for Interventional Cardiology. Performing non-invasive diagnostic procedures (Treadmill Stress Testing, Echocardiography), Coronary Care Unit (CPR techniques, application of temporary pacing, hemodynamic monitoring, IABP). Interventional procedures in the Laboratory for Interventional Cardiology (part of the national program for treatment of Acute Myocardial Infarction).

Consultations in the field of preventive medicine.

Imre Ungi

Associate Professor, Director of Invasive Cardiology Division, University of Szeged, Hungary
2008-present

Professional skills and experience in interventional cardiology:

1991 - 10100 diagnostic cardiac catheterization (6200 transradial access);

1995 - 5300 percutaneous coronary intervention (2700 transradial access);

2007- Complex chronic total occlusion interventions included retrograde CTO cases
(425 cases as 1st operator).

Professional societies, other professional activity:

Board membership:

Hungarian Society of Cardiologists - Advisory Board

WG Interventional Cardiology – Past President

Ordinary membership:

European Society of Cardiology (since 1991)

European CTO Club – Full member (since 2015)

Reviewer and Editorial consultant:

Chest - Journal the American College of Chest Physicians (2004),

International Journal of Cardiology (2010), Indian Heart Journal (2014).

SCIENTIFIC PROGRAMME

09.00-11.30 **LIVE DEMONSTRATIONS: ROMANIA MEETS SWEDEN**

Chairpersons: **Ulf Jensen, Marin Postu**
Panelists: **Adrian Bucşa, Bogdan Mut-Vitcu, Florin Orşan,**
Emanuel Radu, Lucian Zarma
Media facilitator: **Nicu Catană**

09.00-11.00 **TWO "LIVE" CASE TRANSMISSIONS from IECVD "C.C. ILIESCU"**
and Emergency University Hospital

"Live" Case 1 Operators: **Dan Deleanu, Eugen Ţieranu**
Consultant: **Dan Ioaneş**
"Live" Case 2 Operators: **Cristian Udroi, Vlad Vintilă**
Consultant: **Truls Ramunddal**

11.00-11.30 **TWO CASE PRESENTATIONS**

7 min for case presentation, 8 min for discussion for each case
Case 1 Presenter: **Iulian Călin**
Case 2 Presenter: **Radu Stăvaru**

11.30-12.00 **Coffee Break** 

12.00-14.00 **CTO PROCEDURES – When and How?**

Chairpersons: **Ilie Barb, Ştefan Moţ**
Presenter 1: When to do CTO, **Ulf Jensen**
Presenter 2: Antegrade approach, **Peep Laanmets**
Presenter 3: Retrograde approach, **Lucian Călmăc**
Presenter 4: Hybrid approach, **Imre Ungi**
Presenter 5: Complications of CTO procedures and how to solve them,
Zoltan Ruzsa

14.00-15.00 **Lunch Break** 

15.00-17.30 **LIVE DEMONSTRATIONS: ROMANIA MEETS HUNGARY**

Chairpersons: **Dan Deleanu, Zoltan Ruzsa**
Panelists: **Monica Chiţu, Ayman Elkahlout, Istvan Kovacs,**
Igor Nedelciuc, Ion Popovici
Media facilitator: **Nicu Catană**

Friday, March 29th, 2019

15.00-17.00 **TWO "LIVE" CASE TRANSMISSIONS** from IECVD "C.C. ILIESCU"
 **and Emergency University Hospital**

"Live" Case 3 Operators: *Marin Postu, Iulian Călin*
Consultant: *Ferenc Györy*

"Live" Case 4 Operators: *Lucian Călmăc, Cristian Udroi*
Consultant: *Imre Ungi*

17.00-17.30 **TWO CASE PRESENTATIONS**

7 min for case presentation, 8 min for discussion for each case

Case 1 Presenter: *Vlad Bătăiță*

Case 2 Presenter: *Lucian Predescu*

Saturday, March 30th, 2019

09.30-11.30 **LIVE DEMONSTRATIONS**

Chairpersons: Truls Ramunddal, Lucian Călmăc

*Panelists: Cristian Dina, Mihai Melnic, Rodica Niculescu,
Miroslav Slovenski, Mihai Ursu*

Media facilitator: Nicu Catană

09.30-11.00 **"LIVE" CASE TRANSMISSIONS** from IECVD "C.C. ILIESCU"

"Live" Case 5 Operators: *Lucian Predescu, Radu Stăvaru*

Consultant: *Kambis Mashayekhi*

11.00-11.30 **TWO CASE PRESENTATIONS**

7 min for case presentation, 8 min for discussion for each case

Case 5 Presenter: *Bogdan Drăgoescu*

Case 6 Presenter: *Răzvan Șerban*

11.30-12.00 **Coffee Break** 

12.00-13.30 **CHIP IN DAILY PRACTICE**

Chairpersons: Igor Spiroski, Dragoș Vinereanu

Presenter 1: Revascularization in stable coronary disease – guidelines and controversies (SCAAR Registry, Orbita...), **Martin Hudec**

Presenter 2: Left Main PCI in acute coronary syndromes, **Dan Deleanu**

Presenter 3: Hemodynamic support in high risk PCI, **Ilie Barb**

Presenter 4: Radial approach in CHIP cases, **Igor Spiroski**

Presenter 5: Antithrombotic therapy in patients with ACS or PCI and atrial fibrillation: what's new? what's next?, **Dragoș Vinereanu**

13.30-14.30 **Lunch Break** 

14.30-16.00 **LIVE DEMONSTRATIONS**

 **"LIVE" CASE TRANSMISSIONS from IECVD "C.C. ILIESCU"**

Chairpersons: Kambis Mashayekhi, Marin Postu

Panelists: Ilie Barb, Dan Ioaneș, Ulf Jensen, Pavel Platon, Claudiu Stoicescu

Media facilitator: Nicu Catană

"Live" Case 6 Operators: **Adrian Bucșă, Eugen Țieranu**

Consultant: **Peep Laanmets**
