

PROGRAM - Friday, 30th of October 2020

CHANEL 1. Live Cases

11.45-12.00 *CHIP ROMANIA OPENING*

12.00-13.30 **SESSION 1**

Chairpersons: Ivo PETROV, Marin POSTU

Panelists: Martin HUDEC, Igor SPIROSKI

Live case transmission from EICVD "CC Iliescu", Bucharest, Romania

Operators: Dan DELEANU, Lucian PREDESCU

Conference: CHIP procedures by snuff box radial access, Claudiu UNGUREANU

13.30-14.00 *Break*

14.00-15.30 **SESSION 2**

Chairpersons: Dan IOANES, Truls RAMMNUNDAL

Panelists: Peep LAANMETS, Risto JUSSILA

"Live in a box" case transmission from Royal Victoria Hospital, Belfast, Northern Ireland

Operator: Simon WALSH

Conference: An overview about progresses in CTO techniques, Joao SILVIERA

15.30-16.00 *Break*

16.00-17.30 **SESSION 3**

Chairpersons: Zoltan RUZSA, Stanislaw BRATUS

Panelists: Gyory FERENC, Sergey FURKALO

"Live in a box" case transmission from University Heartcenter Freiburg – Bad Krozingen, Germany

Operator: Kambis MASHAYEKHI

Conference: Hemodynamic support in CHIP procedure, Ilie BARB

CHANEL 2. Learning techniques

12.00-13.30 **SESSION 1. BEST PRACTICE IN LEFT MAIN PCI**

Chairpersons: Stefan MOT, Goran STANKOVIC

Conference 1. Adjunctive imaging during LM-PCI: Is this a necessity? Stefan MOT

Conference 2. EBC Consensus on Left Main PCI, Goran STANKOVIC

Case 1. Acute coronary syndrome due to distal left main stenosis in a patient with severe thrombocytopenia, Calin HOMORODEAN

Case 2. Complex multivessel PCI for unstable angina, Mihai COCOI

13.30-14.00 *Break*

14.00-15.30 **SESSION 2. CTO PROCEDURES**

Chairpersons: Valery GELEV, Imre UNGI

Conference 1. Rationales for CTO recanalization, with basic antegrade techniques, Valery GELEV

Conference 2. Retrograde approach and complications of CTO PCI, Imre UNGI

Case 1. CTO PCI: passing the wire is not enough - Lucian CALMAC

Case 2. Third time lucky - Adrian BUCSA

15.30-16.00 **Break**

16.00-17.30 **SESSION 3. SPECIAL TECHNIQUES IN CHIP PROCEDURES**

Chairpersons: Dan DELEANU, Theodora BENEDEK

Conference 1. Rotational Atherectomy and Intravascular Lythotripsy, when and how, **Dan DELEANU**

Conference 2. The role of interventional imaging to guide complex procedures, **Theodora BENEDEK**

Case 1. Almost undilatable calcific lesion – **Nicolae CARSTEA**

Case 2. Coronary CTO Recanalization - our experience – **Dumitru TARITA**

CHANEL 3. Cases

12.00-13.30 **CHIP CASES, SESSION 1.**

Chairpersons: Ion POPOVICI, Lucian ZARMA

1. **Mihaela GHEORGHIU** - In the mirror
2. **Daniel BRIE** – ANTERIOR STEMI, 2 o' clock in the morning routine
3. **Razvan SERBAN** – What is meant to be will always find its way to in CTO PCI
4. **Lucian CALMAC** – Two stages of revascularization in a very high risk ACS
5. **Alex ACHIM** – Everything closed
6. **Simion Paul ALEXANDRU** – Multistenting in a patient with Kawasaki coronaropathy and high surgical risk

13.30-14.00 **Break**

14.00-15.30 **CHIP CASES, SESSION 2.**

Chairpersons: Igor NEDELICIUC, Gabor TOTH

1. **Alex ACHIM**– Challenges of treating octogenarians: calcification all over
2. **Mihai MELNIC** – Complex Higher Risk Patients
3. **Ilie BARB** – So Many Ways to Die, So Many Ways to Stay Alive, But if You Wouldn't Mind to Wait a While, You Could give Give another Day a Try...
4. **Iulian CALIN** – DK Crush with SELF apposable STENT in LM
5. **Elvis BOTU** – Three vessels three complex devices
6. **Lucian PREDESCU** – What you can't pass, avoid it

15.30-16.00 **Break**

16.00-17.30 **CHIP CASES, SESSION 3.**

Chairpersons: Nicolae FLORESCU, Rodica NICULESCU

1. **Mihnea-Traian NICHITA-BRENDEA** – “Standing on the shoulder of giants” an interesting case of retrograde recanalization of an ostial LAD CTO
2. **Eugen Tiereanu** – Complex Case from all points of view – a real challenge
3. **Emanuel RADU** – When surgeons can't, interventionists can
4. **Cristina SPINU** – To care more is to care less-the story of a LM lesion
5. **Mihai URSU** – What and how do we treat first?
6. **Dan FILIP** – A dangerous cocktail: extensive anterior stemi, calcified distal left main, haemodynamic instability, high dose beta-blocker self-medication!
